QUALITY AND ENVIRONMENTAL POLICY

Maritime Shipping Bureau LTD performs: *Consultancy of marine operations execution; offshore engineering consulting; marine warranty surveys; marine accident investigation; ship and cargo inspections*.

The mission of **Maritime Shipping Bureau LTD** is to offer high-quality services with guaranteed safety, utilizing technical means at a modern technological level, in full compliance with environmental protection requirements.

The Management declares that the "*Quality and Environmental Policy*" falls within the defined scope of the *Quality Management System* and *the Environmental Management System*, and is appropriate for the purpose and context of the Organization, including the nature, scale, and environmental impacts of its activities.

The company complies with applicable regulatory and other requirements established by legislative or other authorized bodies, relating to service quality and environmental aspects.

Following our philosophy, we set the following goals:

- ✓ To offer services in accordance with specified requirements;
- ✓ To guarantee the expansion of our market position;
- ✓ To continuously improve the processes of the *Quality Management System* and the *Environmental Management System*;
- ✓ To prevent environmental pollution by executing activities in a manner that ensures environmental protection;
- ✓ To reduce material and energy consumption;
- ✓ To maintain mutually beneficial relationships with clients, suppliers, subcontractors, government and public institutions;
- ✓ To provide appropriate methods for effective information exchange with interested parties in order to implement corrective actions;
- ✓ To analyze any occurred pollution and the effectiveness of the taken actions;
- ✓ To implement measures for professional development, increasing staff motivation, participation, and commitment;
- ✓ To maintain the good reputation of the company;
- ✓ To enhance environmental performance;
- ✓ To guarantee work quality and environmental protection by subcontractors.

To achieve these goals, the company provides:

- ✓ Financial resources
- ✓ Competent staff
- ✓ Reliable organization
- ✓ Technical means at a modern technological level
- ✓ Monitoring and measurement related to environmental aspects
- ✓ Quality control of services
- ✓ Environment of involvement and commitment for every employee

The Management declares its "*Quality and Environmental Policy*," which is:

- ✓ Documented, implemented, and maintained;
- ✓ Communicated, understood, and applied at all levels within the Organization;
- ✓ Available to interested parties and accessible to the public.

The Management is responsible for the continuous improvement of the *Quality Management System* and the *Environmental Management System* by setting objectives with measurable indicators, and conducts periodic reviews of their implementation.

The Management reviews the "*Quality and Environmental Policy*" at least once a year to ensure its effectiveness and adequacy.
